Dear Player Parent/ Guardian:

May 01/18

You are receiving this letter based on your student/athletes performance in the TVHS Girl's Lacrosse program this year. We are pleased that many have shown interest in continued practice over the summer and want to offer opportunities for individual and team development. In order to maintain their skills and for the overall success of our teams, commitment to the **Summer Program** is essential. We understand there are many valid reasons why your student/athlete can't attend all dates available but the hope is that if your player is in town they will be at practice.

Simply put, we think it is important that players, parents, and coaches are on the same page and show a commit to Golden Bear Girls Lacrosse this summer. Please do your best to encourage your daughter to practice on her own, to go to practice, and to schedule obligations around lacrosse whenever possible. We need to make it clear that we **do not** encourage missing out on family vacations, athletic camps and other TVHS school programs as these create a more productive student athlete. If your player does need to miss any practice time a written note via e-mail to Coach McGowen pmcgowen@tvusd.k12.ca.us or Coach Hamill chamill@tvusd.k12.ca.us from a parent/guardian **prior** to the absence is expected. Follow-up calls from teammates and coaches for absences should be anticipated and be seen as a motivational tool guaranteeing accountability for all involved.

We will continue to work out throughout the summer and fall, so we need you, as well as the coaching staff to monitor your athlete's progress. Please encourage them to reach their goals for the spring by putting in the focused effort during the summer and the fall. Coaches also have outside obligations and opportunities but will do their best to communicate with you and your player in a timely manner on schedule changes.

Obviously what we accomplish this summer and fall is crucial to our teams overall success next season. Please take the time to check the dates that your athlete will be expected to attend this summer and plan accordingly.
